Phrase Emphasis

Markdown:

Some of these words *are emphasized*.

Some of these words are emphasized also.

Use two asterisks for **strong emphasis**.

Or, if you prefer, use two underscores instead.

Lists

and this:

- Candy.
- Gum.
- Booze.

Ordered (numbered) lists use regular numbers, followed by periods, as

list markers:

1. Red
2. Green
3. Blue

Code

I wish SmartyPants used named entities like ``—``

instead of decimal-encoded entites like ``—``.

To specify an entire block of pre-formatted code, indent every line of

the block by 4 spaces or 1 tab. Just like with code spans, ``&``, ``<``,

and ``>`` characters will be escaped automatically.
